01:- PART ONE.

1: 0. INTRODUCTION.

1:1. INTRODUCTION OF THE CONSTITUTION.

1: 1: a. We as the VOICE OF PAN AFRICANISTS (VOPA) Community members, we have created and approved this constitution to be our leader/guidance and our reference in our arguments,activities, responsibilities and to provide the procedure and structure of our leadership wherever we exist or wherever we open the branch of our Community.

1: 1: b. For the great interest of our country of Africa, and by recognizing the potential of our

communion in bringing redemption, salvation and development of Africa, we are ready to obey and comply with the laws which are written in this Constitution.

1: 1: c. This constitution is the result of collection of ideas and visions of the pioneers /founders of this community. The foundation of this constitution is built over the visions of our founding fathers and Freedom fighters of our African states. As a recognition and appreciation to our prior pan AFRICANISTS, we have also decided to Walk on their way through obeying this constitution.

1:1:d. This constitution was initially designed and written by comrade JONGELA P.F. KIJA then it was discussed and approved by all VOPA COMMUNITY members to be our guidance and reference .

1: 2. INTRODUCTION OF THE VOPA COMMUNITY.

1: 2: a. The name of our community is VOPA community, where by the word VOPA is the short form of THE VOICE OF PAN AFRICANISTS (VOPA Community). The creation of the VOPA community is the result of the implementation of decisions made by African patriots from different part of the world who recognizes the great efforts made by the prior pan AFRICANISTS and the great efforts which are now being applied by international African communities like AU, political parties like EFF ,various governmental institutions, Non government institutions like ADDI, prof PLO LUMUMBA foundation, and individuals in bringing the African Unity, we are appreciating their efforts and we are giving support towards uniting our AFRICA not as continent but as one Nation with one major GOVERNMENT.

1: 2: b. This good decision which focuses on the interest and well-being of Africa and her people has been issued as a result of many informal meetings made by the community founders .

1: 2: c. This community is designed to cooperate with all willing Africans whose plans toward AFRICA is always good, and then this cooperation will provide solutions to all challenges facing our Africa.

1: 2: d. This community shall not be a political organization and it is not expected to be registered

as a political organization except its community members can be politicians and followers of various political parties. This community is not religious and will not be conducted on the basis of any religion except its community members may be believers and followers of their own religions. People's religious beliefs shall be respected by allowing and giving free time to every worker of the VOPA community to worship what he/she worship in his/her respective day . Nothing will be done upon someone by looking at his/her religion or his/her political party or even anything that makes him/her different from someone else.

1: 2: e. The headquarters of VOPA community will be in Mbeya City in Tanzania. And the chief servants from all over Africa will work in offices built in mbeya City. If the PARLIAMENT will approve then each African state shall have representatives at the VOPA community headquarter as among of the workers of our community in supervision of our economic projects.

1:2:f. OUR MISSION.

The VOPA Community mission is to facilitate the formation of the United States of Africa / AFRICA federation with One supreme government, one central bank and common currency which will be useful throughout AFRICA, one military power which will be responsible to keep our peace throughout AFRICA and remove all foreign military bases, one African passport which will allow free movement of people and goods throughout AFRICA and the removal of colonial boundaries which separate and make us enemies of each other.

1:2:g. OUR VISION.

Our vision is to see a United States of Africa or Africa federation which is independent and self-reliant prosperous AFRICA whose people desire not to leave AFRICA and rush away to be enslaved and humiliated in Asia , Europe and America.

1: 3. THE VOPA COMMUNITY EMBLEM.

1: 3: a. The VOPA COMMUNITY emblem will always be the mark and identity of our VOPA Community.

1: 3: b. Whenever this emblem is used it will mark the involvement or presence or direct ownership of the VOPA Community on what the emblem is used on.

1: 3: c. This emblem has been made by ourselves and we have approved it to be our mark and identity. The emblem was initially designed by comrade JONGELA P.F.KIJA , The design was implemented by comrade AMOS FRANCIS & NEWTON NYEMA, finally the emblem was discussed and approved by all VOPA Community members.

1: 3: d. The blue color on our emblem represent the wealth of the water resource which has been given to Africans by our almighty GOD, our creator. In our unity we must use these water for our well-being and in eliminating our problems we're now facing . Water is not only for drinking since water can change desert to Forest and poor to rich . Our water can make us free from slavery only if we'll understand that farming is not solely depending on rain . We must use this resource to make ourselves free from dependence on those who hate us.Africans, we must stop expecting bread From those whose plan is to destroy us,those whose desire is to make us their permanent slaves.We must use our resources to free ourselves from DEPENDANCE,we must struggle to reach self reliance in each aspect as AFRICANS.This is possible and the ability to do, is on our hands.

1: 3: e. The borderless map of African reveal our Faith that AFRICA is one and that we were initially not having these boundaries which divides and make us enemies of each other.These colonial boundaries which we're now glorifying was imposed on us by COLONIALISTS who came to EXPLOIT our resources,to kill and assassinate our leaders,to hung us, to trade us as commodities. For us to continue to hold and glorify these borders is to give appreciations to the satanic meeting of the bandits who sat in Berlin conference and they decided to invade us.Throwing away these boundaries which was brought to us without our willing and we didn't ask them to impose borders on us is a key way to solve all problems that we are confronting with. These borders has become the source of hatred and war between us, the source of hunger and poverty among us. Removing these boundaries will raise up our economy,will rebuild our love and cooperation between us. On other side for us to continue to glorify these borders is to continue to respect the plan of those whose dream is to destroy us."WE MUST NOW UNITE".

1: 3: f. The warrior is the manifestation of the fact that African problems will end up only when every African man and African woman will decide to cooperate with unity regardless of their differences to fight against ignorance, illness and poverty. It's only on the day when everyone of us will take his/her responsibility in fighting against our enemries when we'll defeat our enemies and we'll become a powerful and independent Nation in every aspect with its complete freedom without foreign interference. Our unity is our salvation. AFRICANS LET'S UNITE NOW.

1: 3: g. Traditional weapons of spear and shield describe our belief that African enemies can be

conquered by our own African techniques, by using our African weapons designed by Africans for the interests of Africa. In Africa, we can conquer poverty, we can defeat disease, and we can win the battle between ourselves and ignorance only by fighting ourselves against the oppressors while using our techniques and our weapons . It's only through our unity that we can build up one AFRICA,powerful and independent Africa. We can't win the battle we're fighting because the weapons we're using are made up by our enemies. AFRICAN enemies must not be allowed to train our soldiers, we can't win a fighter in which our armies are trained by our enemies, we can't win a war we're fighting until the day we'll fight by using our own weapons made by Africans here in Africa. Diseases Shall never disappear in AFRICA until the day we'll fight diseases by using our own doctors and our own medicines and medical equipment made here in Africa by AFRICANS for Africans. AFRICAN CHALLENGES MUST BE SOLVED BY AFRICANS IN AFRICAN WAY. We're facing difficult in resolving our problems because we depends on foreigners to solve our problems something which shall never happen. Our problems are caused & created by Those who hypocritically pretend to call us in their summits to resolve our problems but infact their are seeking for the New way to strengthen their influence on us . For AFRICA to be in safe place we must stop rushing to foreign summits prepared by world's superpower countries because we only go there to give them our secret Information and our inside details which enable them to recolonize us in simple way. Since they're creators of our problems then they can't solve problem instead they'll maximize the burden we're suffering for.The best way we can get out of all challenges we're facing is for us to put aside our differences,come together as AFRICANS, discuss together for we're One and solve together as brothers and sisters of Africa. OUR SALVATION IS IN OUR UNITY . There's no any foreign country in the world which call a summit with African states for the benefit of AFRICA , all they're doing is for their interest. There's no even a single foreign country in the world which can trouble her citizens for the sake of AFRICANS , all they're doing is for their benefits. For AFRICA to regain her greatness we must stop crying for assistance from the colonialists, we must start calling for summits for us to congregate and solve our problem ourselves. There's No civilization we can learn from those who enslaved our fathers and assassinated our leaders , there's No even single wise advise we can receive from those who can't understand even the law of nature of creation. AFRICA IS THE CENTER & MOTHER OF WISDOM & CIVILIZATION.

1: 3: h. Yellow colors clearly reveal the fact that the whole Africa is blessed in all kinds of mineral wealth that someone may need. All of us in our unity as we have thrown away our differences, we must unite to utilize these mineral wealth to rescue ourselves from the intense teeth of those who hate us. By doing so we will be a great Nation to provide humanitarian aid to others and not to continue kneeling before the COLONIALISTS whose intention is to destroy us.

1: 3: i. Green color represents the great potential of our soil to develop every kind of product that man can need. It is a sign of natural wealth and our forests that everything can be found in our land. Through good utilization of our own resources we can redeem ourselves from slavery and dependence. Let us use these resources to build our father's land, let's stay in Africa to build our

own Homeland, let's not dare to flee to Asia, Europe and America to be enslaved , humiliated persecuted and abused by those who assassinated our fathers .Let's cooperate and love each other as we're all AFRICANS and the fact that we're all children of the same father. Let's put aside our differences,let's UNITE to build unconquered African empire .OUR SALVATION IS BASED ON OUR UNITY.

1: 3: j. The black color represent the Human resources and the natural descendants of Africa. The Natural INHABITANTS of the African population who are all children of the same Father. We're all AFRICANS and Africa is ours, Let's unite and allow free movement throughout AFRICA, Let's stop calling our compatriots "ILLEGAL IMMIGRANTS" while we're all at our home ,we're all in AFRICA our motherland. Let's unite and fight together for our dignity and our sovereignty for we're now not free because independence means self RELIANCE.How can we say that we're free while we can't even move freely at Our own home?, How can we say that we're free while we import everything from those who don't love us?, How can we say that we're free while our home is full of millitary bases and Police stations of those whose dream is to destroy us?,How can we say that we're free while we hate ourselves,we fight against ourselves for the interest of the COLONIALISTS and our resources are being taken away freely Infront of our eyes .IT'S THE TIME NOW FOR US TO UNITE to conquer our oppressors. Let's UNITE NOW to achieve single and powerful government, single currency throughout AFRICA,single passport and free movement throughout AFRICA, single and powerful MILLITARY POWER, Let's chase away those who're surrounding us with their millitary bases, Let's free ourselves From CFA & ECO colonial currency,This is 100% possible, LET'S believe on ourselves ,Let's depends on ourselves,Let's stop DEPENDANCE on those bandits whose intentions is to make us worse POOR and permanent slaves .

1: 3: k. The white color is a symbol of peace and harmony which is the greatest need for our prosperity and welfare .We must STOP fighting against ourselves for by the time we're fighting our resources are being freely taken away by those who we always think that they're our friends while they're our great enemies. Fighting among ourselves is the benefit to those who hate us for they use that chance to steal our resources while we're killing ourselves for our resources are being taken away in exchange of weapons and when we're busy killing each other our resources are being freely taken away . If we're not ready to stop this stupidity then we're preparing to be permanent slaves at our own home. This white color can also be considered to represent the skin appearance of some of the AFRICAN IMMIGRANTS who we're now considering as our fellow Africans .

1: 3: l. The red color is the symbol of the blood of all African patriots who volunteered to offer their lives up to death fighting for the independence,justice and equality in Africa and throughout the world.They opposed and resisted the invasion and infringement of Africa, these people fought

against colonialism for us, they missed peace so that we may live peacefully in our own land, they died in the state of poverty so that we may live in the state of wealth by using our own resources, they were being sold into the market as commodities that we may live shameless in Africa, they were abused, hanged , killed and assassinated that we may live free in our motherland, They were distributed throughout the world as slaves that we (their children) may live United in Africa, these people even were having no great education but they knew the value of Africa, these people were not afraid of fighting the enemies to teach us the courage to confront with every difficulty and to defeat every enemy on our own way, these people were not coward that they fought for what is ours,they fought for our dignity, freedom and our resources, they taught us HOW THE HERO SHOULD BE DEFINED. AFRICA has an obligation to remember and appreciate her heroes. We must respect what they performed for us, Our history which is written by Africans for the benefit of Africans must be clear to everyone. This will maximize the patriotic spirit on us.

1: 3: m. Words "AFRICA MUST UNITE NOW".

It's correctly true that we need to unite now not as continent but as one NATION with one government for AS WE DELAY TO UNITE THE HARDER IT BECOME FOR US TO UNITE. We're very fragmented,disunited and powerless while our enemies are United and powerful than we are. For us to defeat them we MUST UNITE NOW otherwise we'll never UNITE and we'll forever defeated. Our salvation lies on our unity for if we'll UNITE we'll have one AFRICAN army which will be very powerful to patrol and defend the whole AFRICA then we'll expel all non African military bases in Africa. These foreign military bases are the big source of political instability in AFRICA , we need to expel them from our Nation and replace them with a powerful AFRICAN army which will be strong enough to keep and maintain our peace. If we'll UNITE NOW we'll have our own AFRICAN CENTRAL BANK which will be able to print our own single currency which will be used throughout the whole AFRICA. Having one central bank and single currency will save us from foreign debits,from poverty, from hunger,from USD slavery, from poverty, from foreign aids & debits , from overdependance and from segregation. If we'll UNITE NOW we'll have a UNITED STATE OF AFRICA which will have one and powerful government strong enough to solve all problems which we're now confronting with. If we'll UNITE NOW we'll remove these colonial borders which we've been glorifying and praising for a long time while we're abusing ourselves. These borders were imposed on us without our wills by the European bandits in order to facilitate their evil mission of invading us, dividing us, colonizing us ,killing us, assassinating our patriotic leaders and exploiting our resources . These borders are not ours, it was not our suggestions to have these borders which divide us and make us hate each other. We're now free , let's lift away these borders to allow our integration that we may be able to trade each other as AFRICANS. It's also CORRECTLY TRUE that if we'll not UNITE NOW we'll forever remain slaves at our home, we'll continue hating each other and we'll not stop abusing ourselves by calling our compatriots " ILLEGAL IMMIGRANTS " while we're all Africans and we're all in Africa. If we'll not UNITE NOW then our enemies will not stop to

make us fight against each other while they're steeling our resources and we'll forever be poor on the rich land.If we'll not unite now then our children will never stop dying in the Mediterranean sea while they're striving to be enslaved in Europe and America, our children Will leave this land and they'll be slaves as house boys and house girls in the house of the colonialists, Our children will forever be humiliated and innocently killed in abroad.If we'll not unite now then we'll remain the most disrespected human race in the world and both our humanity and our right will never be considered.If we'll not unite now then we'll continue submitting all of our precious materials to the imperialists and turn back to kneel down under their feet to beg for what is ours, if we'll not UNITE NOW we'll forever continue to submit our huge whole bread into the hand of the bandits and turn back to kneel down under their feet crying and begging for only tiny particle of our own bread.

AFRICANS, IT'S NOW THE TIME TO UNITE OTHERWISE WE'LL SOON BE WORSE COLONIZED AGAIN.

AFRICANS Let's take time to think again, let's remember that we're the children of the same father, let's understand that we're one, let's remember where we came from, let's look where we are now, let's lift our eyes to see where is our destination, let's think how shall we reach at our intended destination. AFRICANS, It's the time now to throw away our differences and come together as AFRICANS, Let's not be proud of our Kenyaness,Tanzanianess ,Ghanaianess ,South Africaness , Nigerianess or even any selfishness, Let's everyone of us be proud by saying "I'M AN AFRICAN, I'M SMARTLY WORKING FOR AFRICA, FOR THE SALVATION OF MY HOMELAND".

1: 4. OUR FAITH.

1: 4: a. All Africans are equal regardless of their differences in the wealth, educational level, religion, political orientation, colonial boundaries , tribes or any other difference that distinguish one person to another.

1: 4: b. Africa is one and her people are one and should live in unity and love each other without relying on the colonial boundaries which were brought to us as a result of the implementation of the decisions made by European bandits in Berlin conference who decided to come to INVADE us, to divide us, to persecute us, to abuse us, to rob us, to abuse our humanity by trading us in the markets as commodities , to hang and kill us openly. WE'RE NOW FREE AND WE MUST UNITE AS AFRICANS.

1: 4: c. For us to continue abusing ourselves by calling our compatriots "ILLEGAL IMMIGRANTS" while we're all still at our home here in AFRICA is to continue to show respect and to glorify the Berlin bandits meeting.For the sake of prosperity of AFRICA, we MUST UNITE to allow free

movement of people and goods throughout AFRICA.

1: 4: d. The strong united states of Africa is only the most important solution to all problems facing Africa as OUR UNITY IS OUR POWER. AFRICA shall free herself from slavery only by UNITING as one Nation and not otherwise. Our financial crisis will be solved only when AFRICA will agree to have a single CURRENCY which will be useful throughout AFRICA . We'll be financially stable only if we'll agree to have one CENTRAL BANK which Will be printing and controlling our CURRENCY and make it useful throughout AFRICA and abroad. We'll make our economy stable ONLY if we'll allow free movement of our people and goods throughout AFRICA to enable our people to trade each other as we're all Africans.

1: 4: e. There is nothing to prevent us from uniting Africa if we decide to UNITE ourselves for the sake of our salvation as AFRICANS. This is because even our Almighty GOD himself loves unity. The only challenge hindering us on this is that MANY OF OUR LEADERS WANT TO BE GREAT FISH IN A SMALL PONDS which is impossible. The day our leaders will conquer selfishness , desire for popularity and striving for fame is the day we'll start moving on the right direction. AFRICANS , if we're not ready to unite then we're preparing to be an everlasting most disrespected human race throughout the world. The truth is that NO ONE AMONG AFRICANS WHO'LL BE A SUPERSTAR IF AFRICA IS NOT A SUPERSTAR.

1: 4: f. Selfishness among our AFRICAN leaders that everyone of them want to be a top government leader after the formation of the UNITED STATE OF AFRICA is one of the greatest obstacles for us to unite. For us to UNITE we need to sacrifice our desire for publicity, popularity, fame and selfishness because what we need is a UNITED STATE OF AFRICA regardless of who is a top leader and where is he from as long as he's a patriot from among African States. We can't unite AFRICA while we're selfish, we need to start thinking out of the box, let's think about AFRICA , let's not our mind be limited by these colonial boundaries , let's not only think about our small African states but let's consider the whole AFRICA as our home. Let's not cast our care to be elected on different government positions but let's focus on how we can UNITE to form a United States of Africa. Let's not fight for leadership position but let's focus on prosperity of our homeland.Anyone among us who'll be our top leader let's cooperate and work together with him for the salvation of AFRICA.

1: 4: g. Any military attack or illnesses attack or attack of any problem at any part of Africa is an attack to the whole Africa and must be answered by whole AFRICA without hesitation.

1: 4: h. CORRUPTION is an exactly the reasons for our low status we have. Economic sabotage is

one of the factors which draw us back. For the sake of prosperity of AFRICA, we must stop all kind of corruption . Our resources must be well managed . Any person who'll be confirmed that he/she is corruption oriented shall not be our member in VOPA community for that person is good for nothing. The VOPA community parliament and the present leadership must take actions against any corrupt leader in the VOPA community . CORRUPTION is the reason to why many people dies in our destructed and law quality roads, it's the reason to why our children and our parents are dying in our law quality hospitals because of lack of medicine due to CORRUPTION, it's CORRUPTION which is the reasons to why we were given only flag independence but both our economy and our mind are still captured. CORRUPTION has killed more people in Africa than any Civil war , CORRUPTION is more dangerous than any destructive weapon in the world. FOR AFRICA TO BE GREAT AND GLORIOUS AGAIN THEN ALL CORRUPT PEOPLE MUST BE SEVERELY PUNISHED AND THE TERM "CORRUPTION" MUST BE THE FORGOTTEN WORD IN OUR HISTORY.

1: 4: i. To comply with African culture in our life is our honor and our salvation but imitating the Western people's culture is where our destruction is. HOMOSEXUALITY and ABORTION are things that shall not be tolerated anymore in our AFRICA. Anyone who'll be confirmed to offer support to homosexuality or abortion must be expelled from our community with no compensation, There's no forgiveness to the one who practice these satanic habits. We'll never work with someone who practice /support these terrible evils. FOR AFRICA TO BE GREAT AND GLORIOUS AGAIN THEN WE MUST NOT EMBRACE THE EVIL CULTURE OF OUR OPPRESSORS .THE TERM LGBTQ MUST NOT ENTER INTO THE MIND OF OUR CHILDREN .

1: 4: j. Fear and shamefulness among ourselves is what destroying our Nation. We must have to say and live the truth because that will cost us little compared to our silence.

1: 4: k. Our courage to confront with the situation we have and fight against our enemies will save us from our enemies and bring us to the land flowing of milk and honey. It's the time for Africans to wake up now, we have been dreaming for a long time, now it's a time to wake up and fulfill our dreams. "Let's cast away the fear of death because death is the part of our life. Let's be proud of our Africaness." Let's be ready to fight for our country even to die for what is ours"

1: 4: l. EFFICIENCY of the work done by someone is the measure of integrity at work and shall be the measure for a person to obtain any position to serve in our VOPA Community. Certificates that are only pieces of paper and the education level of person are important but we will not cast our sole attention on them . A person will be judged according to the quality of his good service that he /she has been doing for the interests of our Africa.

1: 4: m. Effectively working will bring economic redemption to any African and not both the miracles from the unknown place and gaming/betting. Any one whose life depends on the miracles , gaming and betting must not be given any position as a leader in our community but he/she can be our community member. AFRICANS, it's now the time to work harder and smarter for the sake of our homeland .It's not a time now for us to cast our care about waiting for miracles and fortunes. It's not a time now for us to wait for a chance but it's the time for us to create both opportunity and chance. AFRICANS ,let's NOT be deceived by these so called Free financial assistances /aid .In fact THERE'S NOTHING WHICH IS FREE IN REAL. The cost which we'll continue paying for these free financial assistance is very terrible even to hear. There's no any country throughout the world which is working hard to collect revenue from her citizens for the sake of Africans. THESE free financial and health AID we're rushing to seek from the BANDITS are the nuclear/atomic bombs at our own home which will soon erupt and kill us all. Let us not depend on free things, let's not be people to be assisted, let's consider ourselves that WE'RE THE PEOPLE TO OFFER HUMANITARIAN AID TO OTHERS AND NOT OURSELVES TO BE HELPED.

1: 4: n. What we need is our goals and missions to be fulfilled within the scheduled time, we will not care for who is a leader, or for how long he/she has been a leader at a certain position, however we'll have no special election series. The MOST important thing in the VOPA community is to succeed and fulfill our goals. At any hour if the VOPA parliament / council of representatives will confirm that a certain leader is out of our plan, then that leader will be expelled from the respective position and the election will take place at once .Any lazy leader who loves to use the word "impossible" to defend his\her negligence and fear of making wise decisions must be expelled from the respective position of leadership and the election must take place at once. We can't make AFRICA great again by entertaining lazy and stupid leaders for there's nothing impossible. WE NEED LEADERS WITH AN ENDLESS PROBLEM SOLVING TECHNIQUES towards our challenges.

1: 4: o. The habit of falling in love with what is not ours and throwing away what's ours is the reason to why we're in this lowest status of human race.Africans let's now be proud of what's ours, let's stop imitating everything from foreigners, let's love ourselves , let's not be proud of being at a certain place or state of AFRICA but let's be proud that we're all AFRICANS where is the origination of all human civilization. Let's work together as AFRICANS for we're one and we're the children of the same Father. Anyone's problem is our problem let's struggle together to make AFRICA Great again.

1:4:p . All foreign NGOs and all political parties/Organizations funded by European and the USA bandits including foreign embassies in Africa are the source of our tribulation . This is because they're here in Africa to defend the interest of those who have brought them here in Africa by any means even by assassinating our patriotic leaders at our own home. For AFRICA to be great and

glorious again we need not to embrace the presence of foreign aids which are designed to take our freedom and make us forever slaves, foreign embassies which are occupied by spies who seek for our information and send to their home countries and all NGOs and political parties which are funded by the colonialists should be banned. All our NGOs and our political parties should either be satisfied self-reliant Organizations or funded by Africans of good will.

1:4:q. For AFRICA to become great and glorious again ,we must have an ability to control our information systems . Media is a destructive weapon which if we use it well then we'll build our homeland but if we misuse it then we'll be destroying our continent by our own hands. Media can turn an innocent person into guilt and the guilt person into innocent. If AFRICA is to unite and regain her greatness then we must have an ability to control over social Media and all source of information. AFRICAN GOVERNMENT(s) must have an ability to control what the citizens hears and listen from all information sources. HOW CAN WE SAY THAT WE'RE FREE AND WE HAVE SOMETHING WE CALL "secrets" WHILE EVEN THE SATELLITES AND INTERNET WE USE IS NOT OURS ?? . AFRICA IS NAKED IN FRONT OF HER OPPRESSORS. The day that we'll have an ability to control our information systems is the day that we'll start moving on the right direction.

1:4:r . For AFRICA to be in the safe position , we must stop or minimize the amount of products we're importing especially food products and electronic devices. For AFRICA to regain her greatness, we must think of being independent in every aspect for if we'll continue consuming what we do not either know or produce surely we'll continue being slaves in the hands of those who give us food, beverage, clothes, electronic, and machines. OUR LIFE SAFETY IS IN THE HAND OF THOSE WHO DECIDE about the type of food and beverage we consume, the types of machines and electronics we use, the type of clothes we put on and what kind of standard of life we live. Though we always celebrate the freedom days but still the COLONIALISTS CAN DECIDE ANYTHING ON US. FOR AFRICA TO BE TRULY FREE , WE MUST BE SELF RELIANT UNITED STATES OF AFRICA/AFRICA FEDERATION . INDEPENDENCE MEANS SELF RELIANCE and not otherwise for if we're still expecting compassion / pity from the colonialists for us to live THEN WE'RE STILL SLAVES AT OUR OWN HOME.

1:4:s. EDUCATION is the foundation of all human development and the source of everything whether good or bad. For AFRICA to be great and glorious again we must be sure of education we're providing to our children that it is going to impart knowledge and IDEAS which will lead our children to make the Africa we want . We want an independent united self reliant AFRICA but our education system is preparing our children to be everlasting slaves of those who once physically colonized our fathers and now they're colonizing us in new way. There's no way AFRICA can be great and glorious again if we'll continue embracing the COLONIAL EDUCATION SYSTEM . We need to have a system of education which is linked to our resources that our children may be able

to use our raw materials we have to produce finished products which will Meet the requirements of the children of Africa and the world . If we want Africa to be great surely we must invest much in TRUE African EDUCATION, even our true history must be well open, clear and understood to our children.

02:- PART TWO.

02: 0. OUR GOALS/AIMS/OBJECTIVES/ AMBITIONS.

2: 1. To establish, strengthen and develop the community of unity in solidarity and brotherhood that will be formed by Africans from around the world, and this community Will be responsible for facilitating the formation of the UNITED STATES OF AFRICA and for creation of more opportunities so that our young people may remain in Africa to rebuild the land of our fathers instead of rushing to Asia, Europe and America to be enslaved by those who hate us where they will be humiliated and abused regardless of their personality. Our greatest intention is to use every good way to facilitate the UNITY of AFRICA for AFRICA is one since at the beginning but we were divided by those who came to make us their slaves. IT'S NOW THE TIME TO REUNITE as we are the children of one father.

2: 2. Investing in agriculture sector, education, science, technology, research, health, business and industrial sector, fishing and in any sector where we'll see that there's benefit\interest. These investments will provide employment opportunities and reduce poverty among African youths and they'll not continue dying again in the Mediterranean sea as they seek to be enslaved in Europe and America. By providing more opportunities here in Africa we'll save our children from being house boys and house girls of the colonialist. THROUGH THESE INVESTMENT IN DIFFERENT SECTORS WE'LL MAKE THE VOPA COMMUNITY independent and powerful voice.

2: 3. To apply for support from African Governments to provide us areas\fields for investment as we're the children of Africa and we're working hard for our success as AFRICANS. Because there's no government in the world which hate its youths then we hope we'll be well supported but if they'll not give us both land and financial assistance then we should not end up there, we must by any means fulfill our goal ourselves, we'll have to buy our own land with our own ability for the wide range of our African interests.

2: 4. To apply for sponsorship and financial support from African regional organizations, private

and non government organizations, private companies and individuals whose dreams towards Africa is always good. These support will enable us to implement our work plans. If they'll not receive us then We must not end up there, we must use another plan to fulfil our goals.

2: 5. To work closely and in partnership with various government institutions , Private institution and individuals who their goals are also our goals. The VOPA Parliament is responsible to make decisions on which institution is right for us to cooperate with , for we need to be in partnership which will never facilitate us to violate our constitution. We must be sure that the cooperation between us and others is not weakening our goals and will not make us break the law written in this Constitution. The following are some of institution we'll associate with them prof PLO LUMUMBA Foundation, Africa Youth Leadership Forum, Africa Diaspora Development Institute, Economic Freedom Fighters, African Union and many more .

2: 6. To make congregations & symposiums (PAN AFRICANISTS symposium) which will be held (x 2 or x 1) annually as it will be determined by our Parliament per year for these symposiums will be held in any African states. The primary aim of these congregations is to spread the philosophy/ ideology of PAN AFRICANISM and the fact that " It's only through unity, Africa will recognize her potential". At these congregations the speech relating to our Faith as Pan AFRICANISTS will be delivered. The speaker will be approved by our Parliament. These congregations will be accompanied with an opening/strengthening of a new State branches of VOPA in a certain AFRICAN state. The Program of contributing for our VOPA community development budget will be held. Before we start any thing at our congregation the AFRICAN UNION Anthem and that of the VOPA community Will be sung. OUR symposiums are aimed to reveal the Truth that WITHOUT UNITY AFRICA IS GOING NOWHERE FOR THERE'S NO FUTURE FOR US IF WE'LL CONTINUE REFUSING TO UNITE.

2: 7. Visiting refugee camps and orphanages to offer humanitarian aid to help them and fulfill the requirements of the law 2: 6. This exercise will be regulated by the VOPA parliament or the council of representatives.

2: 9. We will support our African youth who want to make various scientific research to make a scientific discovery that'll enable the VOPA Community to be independent and finally the whole Africa.OUR FAITH MUST BE OPEN TO ALL AFRICANS.

2:10. Calling for African Governments to change the colonial education system whose education offered is not connected to our resources. We want the educational system that will enable Africa to be independent in each sphere and reduce imports of products from foreign countries. We need an education system that Will help us to maximize the exports of African finished products rather than exporting raw materials the situation that makes us poor. We need an education system which will prepare our children to serve Africa and not the system we're now using which prepare our children to be forever slaves. WE'RE POOR NOT BECAUSE WE WERE COLONIZED BUT BECAUSE WE'RE STILL MIND COLONIZED UP TO THIS SECOND. The day we'll Open our eye and see where is leaking is when AFRICA will start MOVING FORWARD .

2:11. Revealing and spreading the philosophy of PAN AFRICANISM throughout AFRICA. We need to make all AFRICANS aware of the Truth that OUR SALVATION IS BASED ONLY ON OUR UNITY. We want a UNITED STATES OF AFRICA with one most powerful continental government (though the local state governments may continue to exist but they'll be under the continental government) , one strongest continental army to keep peace throughout AFRICA and to remove all foreign military bases in Africa, one continental CENTRAL BANK which will print our single currency which will be useful throughout AFRICA and make us free from depending on IMF, WB and foreign aids, We need AFRICA with no these colonial boundaries which were imposed on us for the exploitation of our resources, one official language whose origination is AFRICA, one education system which will make us independent from our colonial masters. We need an integrated AFRICA for our prosperity. As the means of preaching the philosophy of PAN AFRICANISM AND SELF RELIANCE we must focus on opening branches on every EDUCATION INSTITUTION in AFRICA including schools, colleges and universities.

2:12. Using the profession and the ability of our fellow Africans to fulfill our ambitions towards Africa. We will have different institutions which will be made up by Africans who've the same professional and ability . These institutions will enable us to be self dependant in every aspect. Within VOPA community we'll have different boards which will work and supervise our institutions.These boards will be made up by people who've the same skill, ability and professions. These institutions will enable us to be self reliant community by having our own hospitals, our businesses, our farms, our livestocks, our own medicine & drugs, our machines, our electronics , our construction companies and every thing we can do for the sake of AFRICA we'll do for our prosperity. Leaders of these institutions & boards will be appointed by the CEO and they'll be approved by the Parliamentary vote of YES by >50% of all MPs . Our mission is to reveal the truth that "AFRICA SAVED THE WORLD AND IT CAN SAVE THE WORLD AGAIN", "AFRICA WAS GREAT AND IT CAN BE GREAT AGAIN".

2:13. To make Africans aware of the fact that SELF RELIANCE is what will save us from the hands of our COLONIAL masters. We must stop expecting for the help from USA, EU & ASIA for there's

nothing Free and they're there United to EXPLOIT us, they've initiated many organizations purposely to weaken us and exploit our resources. We must understand the real TRUTH that there's no any foreign country which is day and night collecting revenue from her poor good citizens for the sake of AFRICANS. We must remember the fact that we're the most hated human race on the world therefore we must love each other as AFRICANS. We must stop EXPECTING humanitarian/financial aid from WB ,IMF, ICC, MONUSCO, human right watch, and other organizations which are under the control of the imperialists for they've designed such organizations for THEIR benefits ONLY. We must remind ourselves the Truth that EUROPEANS NEVER INTENDED TO BUILD AFRICA for they came only to invade us, divide us, kill us , assassinate our LEADERS who refused to betray us for the sake of colonialists. The bitter truth is that when we resisted their evil and satanic mission on us they cut our hands , they terribly killed us and dumped us into Holes in groups and they did all of these evils upon us at OUR own home. The colonialists are coming again in other way but their mission is the same as it was before AND WE MUST OPPOSE THEM. WE MUST UNITE And solve our problem OURSELVES as AFRICANS for if we'll not do so we'll continue forever remain slaves at our own home untill the second coming of JESUS.

2:14. While promoting the philosophy of PAN AFRICANISM Throughout AFRICA we'll be responsible to promote the philosophy of self reliance as a means for us to be independent and free from the colonizers teeth. As the law 2:12 explain we'll be ourselves a self reliant organization in every spheres by making sure that we invest in every sector where there's benefit for our community. As an Implementation of this law we must have our own land, fields, buildings, hospitals,schools & colleges, construction companies,industries and other companies and institutions according to our needs as it will be approved by our Parliament. The fact that we were physically colonized and that we were given only flag independence but we're till even now really mind colonized and even our decision are always interrupted by foreigners must be understood to everyone of us . We must fight for our sole independence and freedom. As an effort to make Africans aware of our situation and our struggle as PAN AFRICANISTS we must focus on opening pan AFRICANISTS club at every EDUCATION INSTITUTION (schools , colleges and universities) in AFRICA which will be responsible to preach both the philosophy of Pan AFRICANISM and SELF RELIANCE.

11: 0. OUR EXPECTATIONS (OUR DESIRE TOWARDS AFRICA) .

11: 1. We look forward to see an Africa that does not glorify these colonial boundaries which was imposed on us by those who came to invade us, to divide us and set enmity among ourselves, to fight us, to assassinate our patriotic leaders, to hang and kill us in public , to trade us as commodities and to exploit our resources. We need and we expect to see a United States of AFRICA whereby these colonial boarders which limit us from trading each other will be the forgotten history.

11: 2. We look forward to see an Africa which her people are free to travel around Africa doing business with each other while having only one passport, with single currency without being disturbed by these colonial boarders which was imposed on us without our wills.

11: 3. We're expecting to see a UNITED AFRICA not as continent but as one NATION having a single army to protect the whole AFRICA by keeping peace throughout AFRICA and removing all foreign military bases in Africa. This is the United States of AFRICA which have only one major ,powerful and independent government which will take control throughout AFRICA though the minor state governments might continue to exist to support the major government but they'll be under the major government.

11: 4. We are looking forward to see an Africa which her people are one and united regardless of their differences in religious matters, gender, education level, political orientation, colonial boundaries or any other different that makes someone different from another one. It is an Africa that her people do not call each other "ILLEGAL IMMIGRANTS" while they're all Africans and they're in Africa. AFRICA IS THE HOME OF AFRICANS AND WE CAN'T SAY THAT WE'RE FREE WHILE WE'RE NOT FREE EVEN TO MOVE ACROSS OUR HOME.

11: 5. We are looking forward to see an Africa where there are no foreign military bases/camps or police stations from other non-African countries. These foreign armies have been the source of political instability, wars and violence in AFRICA for a long time, WE MUST UNITE NOW to EXPEL them. This is Africa which its army is the most stable and independent in every aspect to ensure peace and security throughout AFRICA. This is because the presence of military camps in Africa has been a major cause of lack of peace between us and is a major threat to our sovereignty.

11: 6. We look forward to see a UNITED STATES OF AFRICA that will be no longer use all the

colonial currencies like CFA and ECO. This is an African where the single African currency is useful throughout AFRICA. This is an AFRICA which has one CENTRAL BANK which is capable of printing our money which is in single currency to be used throughout AFRICA. This is AFRICA where the term "FOREIGN DEBITS" will be the forgotten history. This is an independent AFRICA where people are free to trade with each other throughout AFRICA by using one AFRICAN passport, single currency without being disturbed by these colonial boarders.

11: 7. We are looking forward to see an Africa that is independent in every aspect . This is an African that uses its resources to fight against her enemies and to conquer them. It is an AFRICA that uses its wealth of minerals, FORESTS , water bodies, and fertile soil, to satisfy each need. It is an Africa that does not walk naked in other civilizations to ask for help and depend on the compassion & pity of those who doesn't consider our pain.This is an AFRICA which doesn't kneel down under those whose joy is to destroy us to beg for bread from those who doesn't care about our hungry.This is an AFRICA which is satisfied and need nothing from those who enjoys our pain & cry . We need to use our resources to free ourselves from depending on those who doesn't see the value of our personality & humanity.

11: 8. We are looking forward to see an Africa that has her own African companies to take over all the construction tenders in Africa, to extract our mineral, oil and gas, to manage all the power plant stations, to manage our plant & machines. It is an Africa that import only small amount of raw materials but export a larger quantity of finished products to te world. This is Africa that sell its products around the world and import less. This is Africa that does not bow down under the feet of the bandits to beg for only piece of bread from those who've taken our bread , those who feels no pity on our suffering ,those who cerebrate our starvation. But this is an Africa that provides humanitarian aid around the world.

11: 9. We are looking forward to see an Africa that has her own education system for self-reliance. This is an educational system whereby the education provided is linked to our resources. This is an educational system that will make Africa to be self-reliant in each sphere. This is an education which prepare our children to design and make our own African phones & all other electronics, clothes, Satellites, motors, vehicles, roads and bridges, medicine and drugs, machines and plants. WE'RE TIRED OF USING EVERYTHING MADE BY OTHER CIVILIZATIONS, IT'S NOW ENOUGH WITH THIS SLAVERY, LET'S MAKE OUR OWN.

11:10. We're expecting to see an Africa that is strongly UNITED to the extent that any attack on any African part is considered to be an attack to the whole Africa and that attack will be answered by the whole Africa without hesitation. This is an AFRICA where by any pain or suffering from any part of Africa is considered as the pain & suffering of the whole Africa and is answered by the

whole Africa without hesitation.

11:11. We look forward to see an Africa that her young people will no longer dream to rush away to Asia, Europe and America to be enslaved there where their humanity is not considered. This is an Africa which her young people do not die in the Mediterranean Sea as they're striving to cross it to be enslaved and humiliated in Europe and America. This is an Africa where young people are provided by many opportunities that they get job here in Africa and they stay here to rebuild their homeland. This is not the most disrespected continent again but it's the powerful and respected Nation which doesn't Walk naked on the roads of other civilizations to beg for their pity....NO _NO!!!, This is the strongest, powerful & most respected Nation which provides humanitarian aid throughout the world.

11:12. We look forward to see an Africa which her politicians are ready to say and LIVE the TRUTH in every situation for the interests of Africa. This is an Africa that her politicians are not those who are ready to diverge and spoil the truth for the sake of their own interests in the purpose of striving to show that they respect their chief political leaders while they're all cooperating to destroy the country in their hypocrisy. We need leaders who're in love with AFRICA and its sovereignty,solidarity,unity and prosperity not those whose love is only their self achievements which result to the huge destructions of the Nation.

11:13. We're expecting to see an AFRICA that recalls her HEROES and patriots for the purpose of showing respect to the great work they did and to impart patriotism on our minds. This is an Africa that her history is written in Africa by Africans for the AFRICANS themselves . It is an Africa whose history and information are described by Africans through African medias for the interests of our Africa. WE'RE TIRED OF LISTENING OUR STORIES FROM THOSE WHOSE GREAT INTENTION IS TO DESTROY US, IT'S THE TIME NOW TO WRITE & TELL OUR OWN STORIES.

11:14. We look forward to see an Africa which her people are proud of their culture and make it their identity. This is an Africa where CORRUPTION, HOMOSEXUALITY , HARLOTRY AND ABORTION are highly prohibited under the control of both the government and the society. It is an AFRICA where all illegal businesses are forgotten historical records.

11:15. We're expecting to see an Africa where her army uses African raw materials to make its own weapons and to conquer our enemies. This is an army which uses our uranium to make its weapons. Our enemies are many and has quality weapons than us but we're rich than them, therefore we must strength Our army by any means so that to make it able to conquer our oppressors otherwise we'll fail to protect our resources and we'll remain forever slaves at our own

home and our resources will continue to be freely taken away to be consumed by those who hate us. This is an African army which uses African URANIUM to make its weapons.

Before the multiple superimposed invasion of Africa by other civilizations, AFRICA was a United borderless Nation, A very successful country in every aspect, in love with solidarity, in science & technology, Economically & military strong . AFRICA was the world's leading Nation in every aspect and people were coming from different part of the world to

get their needs here in Africa. Our Almighty GOD stored and preserved the life of the whole world here in AFRICA. All world's great people were here in AFRICA even great scientific innovations were done here in Africa by AFRICANS. The whole world was being controlled from Africa by Africans. IN FACT AFRICA IS THE MOTHER OF ALL KNOWN WORLD'S CIVILIZATIONS. Our lowest level of status we have today is only the result of the weak decision we made after expelling the colonialists. We're now the most fragmented, disunited and disrespected human race in the world not because we were colonized but it's because we refused and we're still refusing to unite as one country. These regional organizations we have today can't make AFRICA great again for the only way for us to make AFRICA great again is by uniting as one Nation and not otherwise. If we'll continue to entertain these State colonial borders and scorn the idea of uniting then we'll continue to be slaves at our own home until the second coming of Jesus and we'll soon be worse colonized again by those who we've invited to have their military bases and police stations at our home. Compatriots, let's UNITE now for if we'll not unite now then we'll soon forever loudly cry and no one will either hear our cry or feel our pain. AFRICANS, IT'S NOW THE TIME TO UNITE FOR IF WE'LL NOT UNITE NOW, MOST ASSUREDLY WE'LL NEVER UNITE ANY TIME MORE.

13: 2. The day we'll throw away both our dread and selfishness and replace them with courage and patriotism is the day we'll surely conquer the neo colonialism and on that day we'll lift our AFRICA from the Lowest status to the highest status.

13: 3. Africa will be a great and strong Nation when her young people will decide to take their heroic responsibility of defending the status of AFRICA for the AFRICANS well-being. YOUNG AFRICANS, are we not tired of rushing to Asia, Europe and America?, Do we still need to work for our colonial masters again?, Is it not enough time now for us to continue dying in the Mediterranean sea as we strive to be enslaved and humiliated in Europe and America? , Don't we see the power in our UNITY?, For how long shall we continue to entertain this fear of making great decisions for the salvation of AFRICA?, If we'll not unite now do we think that there's another time for us to unite except now?, Do we think that it's easy to defeat our enemies while we're fragmented and disunited like this ?. LET'S CAST AWAY OUR FEAR.

13: 4. Let's the young Africans not be afraid to confront with any situation throughout our way to rebuild AFRICA. Let us be ready to fight our enemies and to conquer them . Let us throw away the fear of death because it's the part of our life. Let's learn from our ancestors who sacrificed their life for the liberation of AFRICA. Let's us feel proud of fighting for what is ours. Let's expel the foolishness of being slaves at our own home. Let's reject the stupidity of freely submitting our huge whole bread to the bandits and

come back to kneel down under the same bandits to beg for only tiny part of the bread and after they've given us that small particle we praise them more than even we praise our heavenly GOD.

13: 5. If we pastoralists have the courage to confront with death day and night fighting against dangerous carnivora just only to protect the life of our small valued livestocks . Now if we have such a courage for just livestocks why do we lack the courage to confront these robbers who're day and night steeling our resources ?, If we'll continue keeping quiet and tolerating this stupidity then what will our grandchildren inherit from us if not poverty and slavery??.

13: 6. If we fishermen have a courage to confront death and we always put our life in dangerous environment throughout the whole night when we're in oceans\sea and lake just searching for small valued fish. Now if we have such courage to confront death just for the sake of a fish why do we lack the courage to fight these enemies who make us slaves at our own home?. If we can see our fellow died in the canoe when he was in the sea and we don't stop entering in the sea using the same canoe for the purpose of fish searching then why can't we sacrifice our life to defend what is ours? , Where do we get the power to tolerate those who take our resources to their children and leave us poor?. AFRICANS, it's the time now to hold what is ours.

13: 7. If we have the courage that we witness people who've died and injured on the road as a result of accident and we don't stop getting on the road using the same car that killed our brothers. If we have the courage to sacrifice our life for valueless matters like that then why we're scared of fight against neo colonialism and corruption which make the whole Africa poor?. AFRICANS , let's UNITE now to conquer colonialists and free ourselves from poverty.

13: 8. Compatriots, we live in the world where death is a part of our life, let's stop fearing it , let's focus on our sovereignty as AFRICANS, let's put our attention to our freedom, let's not be slaves at our home, let's be one thing and speak with one voice, let's throw away our differences and UNITE to rebuild our homeland.

LONG LIVE THE VOICE OF PAN AFRICANISTS (VOPA) COMMUNITY..!!! .

PART FOURTEEN.

14:0. ADDITION.

14: 1. It is not true that we're fighting to build AFRICA, the truth is that WE'RE FIGHTING TO REBUILD THE GREAT AND GLORIOUS AFRICA THAT WAS ONCE EXISTING. Africa was ONCE great and the world leading country. It is in AFRICA where civilization was born , it is here in AFRICA where many great people of all time obtained their greatness, it is here in Africa where people from all civilization came to save their life in the time of tribulation, it is here in Africa where EDUCATION was defined ,it is here in Africa where many scientific innovations and inversions originated .

14 : 2. It is not true that we're trying to UNITE Africa, No!!!, The truth is that we're fighting to regain our UNITY which we've lost , we're fighting to recapture our strength/ greatness which we've lost, we're fighting to recapture our UNITY which has been replaced with HATRED , fragmentation and disunity among ourselves. THERE'S NO WAY WE CAN MAKE AFRICA WAKE AND BE GREAT AGAIN EXCEPT OUR UNITY. Even the history has demonstrated many time that whenever we united we conquered our enemies . Even now OUR UNITY IS ONLY OUR SALVATION.

14:3. Now we ask each other that if Africa was great and it was the source of all world's civilizations why do we find ourselves in this worse situation up to this second ?. OUR CHARITY and OUR HUMANITY is what damaged us , our parents welcomed all foreigners who came into our home as sheep during the day time, they multiplied and became powerful at our own home

then at night they betrayed us for they became Hyenas and it was difficult to conquer them. Even though we defeated and we chased them from our land but they're coming again in other ways but their mission is the same , to take our resources and to enslave us and our children. They're now surrounding us with their military bases under the umbrella of peace protection while they're the source of lack of peace throughout the world, They're killing / assassinating our leaders under the umbrella of spreading and defending DEMOCRACY which even themselves can't even give us the definition of the democracy they're taking about, they're initiating and funding uncountable terrorism groups, political parties and non government organizations for the purpose of dividing us, maximizing the HATRED and fragmentation among us and to keep us fighting against each other under the table while they're eating our own meal on our own table. By the time we've forgotten that we're the children from the same father and by the time we're busy killing each other is the sweetest hour for our oppressors to take freely all our good properties and our resources , it is in that sweetest hour when our oppressors give us their weapons in return of our resources in order to keep us fighting and poor. By the time we are busy killing each other is the sweetest hour for our oppressors to delete our desirable culture and they impose their own EVIL undesirable CULTURE including homosexuality on our children, by the time we're busy killing each other is the time we do not engage in Economical activities and we don't even produce food products and raw materials for our industries as a result we're suffering from starvation throughout our life and poverty is still existing at our home as a result we'll soon be forced to agree western idiotic culture for us to be HELPED because we've put ourselves in the position of depending on western compassion for us to live. The process of making AFRICA great again require us to throw away all our differences and come together as AFRICANS, to UNITE and move together toward one direction as a single unit otherwise we'll soon totally colonized again. Our oppressors are united but we're fragmented then how can we stand against them without uniting?. THOUGH WE'RE AT OUR OWN HOME BUT THERE'S NO WAY WE CAN FREELY SURVIVE IF WE'LL CONTINUE REFUSING TO UNITE. Though every African state may lonely strive hardly to stand Infront of the oppressors but it will be easily conquered . THE ONLY WAY IS TO UNITE . THE DAY WE'LL WAKE UP AND RECOGNIZE OUR POTENTIAL IS THE DAY AFRICA SHALL START MOVING FORWARD IN THE RIGHT DIRECTION .

14:4 . CORRUPTION AND BETRAYAL among ourselves is the correct answer of the above question in 14:3 . Even our history has revealed time without number that we have been trying to redeem/ to free ourselves from the destructive teeth of our oppressors but our fellow Africans whose mind are filled with greedy,selfishness and stupidity has been many times betraying us and they join hands with our oppressors . Even our oppressors now know that we're too much corrupt and highly reactive to bribes to the extent that many of us are ready even to submit our sovereignty and our resources into the hand of those who killed our fathers for the sake of little amount of money to fill their stomach. THE DAY OUR CONSCIOUSNESS WILL RECOGNIZE THAT CORRUPTION AND BETRAYAL ARE MORE DANGEROUS THAN ANY DESTRUCTIVE WEAPON AND THAT CORRUPTION AND BETRAYAL HAS KILLED MORE THAN ANY WAR IS THE DAY WE'LL RECOGNIZE HOW BLESSED IS AFRICA.

14:5. EDUCATION SYSTEM is the answer to why we're in this worse situation of being the most disrespected human race throughout the world. WE'RE POOR NOT BECAUSE WE WERE PHYSICALLY COLONIZED...NO!!!, IT'S BECAUSE WE'RE STILL MIND COLONIZED UP TO THIS SECOND. Even what we call "education" is not EDUCATION in real but it is a legalized system of preparing everlasting slaves . WE NEED EDUCATION SYSTEM WHICH IS LINKED TO OUR RESOURCES. We have been witnessing time without number that our bright and talented children are taken into other civilizations under the umbrella of sponsorship and they get employed there to continue building the land of our oppressors , even our good African players , researchers, doctors, engineers are fleeing into the land of the colonialists to continue strengthening the bloody hand of the colonialists and many of them doesn't remember again their homeland AFRICA. WHO'LL BUILD AFRICA AND MAKE IT GREAT AGAIN?. THE DAY WE'LL REALIZE THAT EDUCATION IS THE ROOT OF EVERY KIND OF DEVELOPMENT IS THE DAY THAT AFRICA SHALL BECOME GREAT AGAIN.

14:6. It is not true that our suffering is because of any curse imposed on us by the invisible ...NO !!!, It's because of our ignorance, laziness , selfishness and egocentric ideas, corrupted mind, and the nonsense EDUCATION SYSTEM which we've embraced it for a long time . AFRICA is the only continent where all kind of valuable minerals exist in huge amount, Africa is the only continent which comprises the largest arable land in the world. AFRICA is where great water SOURCES are found. Africa is where all needed tourist attractions exist. AFRICA IS THE STOREHOUSE / BARN OF OUR ALMIGHTY GOD where everything can be safely found kept by OUR CREATOR. Because of our WEALTH foreigners from other civilization are rushing to Africa in group wise while poor but turn to their home rich but the tragedy is that our children are dying in the Mediterranean sea while striving to get enslaved again by those who enslaved our fathers. Inspite of all opportunities and the wealth we have our children know nothing about it and their dream is to leave AFRICA. Unfortunately foreigners know how Africa is blessed than the indigenous people of Africa know . UNLESS WE LOVE WHAT IS OURS WE'RE GOING NOWHERE.

14: 7. All our suffering will end up only if we'll decide to act accordingly . We've been dreaming for a long time , now is the time for Africans to wake up and turn our dreams into reality. We've been suffering from hunger and starvation for a long time , now it's the time to recognize the potentiality of our fertile soil and our water sources. We've been crying of diseases for a long time, now it's the time to recognize the power of our forests. We've been depending on the COLONIALISTS for a long time, now it's the time to recognize and appreciate our brains. We've been calling for foreign investors to come into our land for a long time , now it's the time to empower our young Africans so that they may become INVESTORS. AFRICA SHALL BECOME GREAT AND GLORIOUS AGAIN ONLY IF WE'LL AGREE EFFECTIVELY TO UTILIZE OUR BRAINS .

14:8. There's no any continent throughout the world which is rich like AFRICA . AFRICA is the continent full of tremendous opportunities . AFRICA is where a person can change his/her name from being called "POOR" and start being called "RICH" .The problem with us is in our minds. We're suffering from many problems because of our weak DECISIONS which we've been progressively embracing and glorifying. THE DAY WE'LL AGREE TO TAKE STRONG DECISIONS FOR THE BENEFIT OF EXISTING GENERATION AND THE COMING GENERATION IS THE DAY AFRICA SHALL START MOVING FORWARD ON THE RIGHT DIRECTION.

" LONG LIVE THE SPIRIT OF PAN AFRICANISM ON US...!!!!, LONG LIVE AFRICAN UNITY...!!!!,
GOD BLESS THE VOPA COMMUNITY..." .

" LONG LIVE AFRICAN UNITY, LONG LIVE AFRICAN INDEPENDENCE, LONG LIVE AFRICAN SELF RELIANCE " .
